

TriLinc Global, LLC, founded in 2008, is a private investment sponsor dedicated to launching innovative funds that increase participation in impact investing. Founded on the conviction that significant private capital is needed to help solve some of the world's most pressing issues, TriLinc's¹ primary goal is to create sophisticated, institutional-quality impact investment products that will attract private capital at scale. As an impact investing company, we strive to achieve both a competitive, risk-adjusted financial return for investors as well as create positive, measurable economic, social and/or environmental impact in the communities where investments are made. Together, TriLinc funds have invested over \$1.42 billion in transactions over 7 years.

TriLinc employs a unique Investment Partner model to provide what we believe to be lower risk access to these private investment opportunities in select high-growth economies. Benefits of this unique partner model include: (i) boots on the ground to help mitigate idiosyncratic local risk; (ii) dual underwriting and structuring; and (iii) comprehensive, global diversification. TriLinc's Investment Partners have been carefully selected based on their demonstrated track records, years of experience in their asset class, independent risk controls, and established networks in their specific regions, countries, and local markets. Country selection begins with proprietary, top-down, disciplined analysis, augmented by bottom-up expertise from our local Investment Partners to identify countries with strong growth fundamentals, favorable legal and political frameworks, and unrestricted capital access. For this fund, TriLinc has assembled a team of highly experienced Investment Partners whose principals have collectively deployed more than \$15 billion.²
